# **THE COSMIC LOVE BLUEPRINT: MATCH MATRIX UPGRADE**

*Calculate Your Love Potential*

# Welcome to your Match Matrix Upgrade!

Learning about your astrological compatibility can give you a lot of insight into the true nature of your connection with someone.

This upgrade is designed to help you calculate your romantic compatibility with your love interest so you can understand the true nature of your connection.

The Match Matrix uses an astrological technique called *synastry* to determine how well you match, and what specifically makes you compatible (or not!).

There are three components to your Match Matrix system:

1. Your Astrology Sign Placement List
2. Your Match Matrix Compatibility Key
3. Your Match Matrix Worksheet

## 1. Astrology Sign Placement List

Open your Cosmic Love Blueprints, both your lover's and your own. You'll find your Placement List located on the first page.

Here's what your Placement List looks like.

Welcome to your Cosmic Love Blueprint!

This report is written for Person With Blueprint, and will be addressing Person With Blueprint as "you" throughout.

The following pages are unique to you and have been carefully put together based on your birthdate and birth name, along with the unique positions of the planets on the day you were born.

This reading combines Numerology, Astrology, and Tarot to provide you with an in-depth and accurate romantic profile.

The first section is all about Numerology. It reveals how the frequency of your birthdate and birth name shapes your romantic destiny, reveals your deepest desire, and makes you uniquely attractive.

In the second section, you'll go even deeper to learn how the 6 most important planets in Astrology affect

Your Astrology Placements	
Sun	Virgo
Mercury	Libra
Venus	Virgo
Mars	Sagittarius
Jupiter	Scorpio
Saturn	Libra

Locate each Placements List and write them both down somewhere safe.

## 2. Match Matrix Compatibility Key

Next, you'll need your Match Matrix Compatibility Key.

**Download Your Match Matrix Compatibility Key JPG**

This key will be your tool for calculating your compatibility score on the following pages. So save a copy, and either print it out, or open it on your favorite screen.

The Compatibility Key is sorted by “relationship energies” which you’ll learn about in the following chapters.

You’ll use these calculations in the next step, the Match Matrix Worksheet, where you will simply follow along, fill out each part (using your Placement List) and circle the energy that those two signs share with each other.

### 3. Match Matrix Worksheet

The following pages 34-48 in this PDF contain a worksheet, similar to a quiz in Cosmo. Take this worksheet and print it out if you can. If not, write everything down separately and list the calculations by hand.

For Example:

**SUN / SUN:** *How you relate to one another.*

<u>Your Sun</u> <u>Sign</u>	<u>Their Sun</u> <u>Sign</u>	<u>Unity</u>	<u>Helpful</u>	<u>Loving</u>	<u>Blissful</u>	<u>Friction</u>	<u>Clashing</u>	<u>Magnetic</u>
<u>Virgo</u>	<u>Cancer</u>	2	2	3	4	1	1	2

**SUN / MERCURY:** *How well they understand you.*

<u>Your Sun</u> <u>Sign</u>	<u>Their Mercury</u> <u>Sign</u>	<u>Unity</u>	<u>Helpful</u>	<u>Loving</u>	<u>Blissful</u>	<u>Friction</u>	<u>Clashing</u>	<u>Magnetic</u>
<u>Virgo</u>	<u>Gemini</u>	3	2	3	3	0	0	1

---

Continue through the entire worksheet. Make sure to sum up your score at the end of each section. Then, at the end, you will use your score to determine where you fall on the Romantic Potential Pyramid.

First, let's quickly review each Planet and Relationship Energy type:

## The 7 Types of Relationship Energies

There are seven fundamental relationship energies in all human interactions. While energies are always working between people, different relationships tend towards some more than others.

**1. UNITY** | Called a *conjunction* in astrology, this aspect blends your individual energies together. Depending on the planets involved, it can be beneficial or challenging.

**2. HELPFUL** | Called a *semi-sextile* in astrology, this aspect creates a slightly positive energy that can help your relationship grow and evolve.

**3. LOVING** | Called a *sextile* in astrology, this aspect creates a positive energy that promotes a sense of ease, comfort, and support in your relationship.

**4. BLISSFUL** | Called a *trine* in astrology, this aspect has a powerfully harmonious energy that creates a sense of intimacy, creativity, and deep compatibility in your relationship.

**5. FRICTION** | Called a *square* in astrology, this aspect causes tension and a need for compromise. Depending on the planets involved, it can also create attraction and sexual chemistry.

**6. CLASHING** | Called a *quincunx* in astrology, this aspect makes it hard to relate to one another and will require adjustments or work-arounds.

**7. MAGNETIC** | Called an *opposition* in astrology, this aspect has an intense energy that can create strong attraction or repulsion. Depending on the planets involved it can be very good or very difficult.

## Understanding Relationship Energies

This is where things get interesting! Because, when most people think of “compatible signs” they are referring to their Sun sign.

Since the Sun represents your personality, it’s the easiest thing to relate to! So people who don’t know about deeper astrology can identify with it.

But that's just the tip of the iceberg!

The relationship between your Sun signs is one of dozens of relationships energies interacting between your Astrology charts.

(Hint: This can be VERY complicated and VERY confusing, which is why we created this Match Matrix system!

All you do is follow along with the worksheet, and you’ll be doing the same calculations as a master Astrologer. But easily, and with little effort.)

Each energy affects your relationship in different ways based on the planets involved.

So as you go through this next section, keep in mind that the relationship energies are between signs, and the planets add extra context.

Once you complete your worksheet, you’ll see exactly which parts of your relationship these energies exist in, and how they are shaping the connection between you and your person.

# Some Final Thoughts

Any good relationship takes work. So if your compatibility score was lower than you hoped, don't be discouraged.

The most important factor in a relationship is that both people care about each other and are willing to put in the effort to create a happy connection.

On the other hand, if your compatibility score was high, it's important not to think that nothing will ever go wrong.

You will still have to work at making your relationship thrive.

Keep in mind that a little bit of challenge or tension in your astrological synastry can make a relationship exciting, dynamic and growth oriented.

However, too many problems can be overwhelming and extinguish the romance.

You can return to this guide anytime you have questions about your relationship to help you make conscious decisions in matters of the heart.

Above all, trust your intuition and step forward in love with an open heart, and open eyes.

Wishing you the happiness and fulfillment your heart desires!
